PERSONAL PROFILE

I am currently studying Computer Games Programming at Teesside University, in order to develop skills which will allow me to work within the Games Industry as a programmer.

I am confident with technology and extremely passionate about video games and programming. I am polite, hard working, and strong when working as a team or individually. I am dedicated to fulfilling tasks efficiently and effectively.

EDUCATION

Teesside University, Middlesbrough, England. (Current)

Currently studying: Bsc Computer Games Programming (Skillset Accredited)

Modules: AI Programming, Network and Concurrent Programming, Games Engine Construction, Games Software Development, Animation and Simulation Programming, 3D Graphics Programming.

ICT	A, A,A,A
English Language/Literature	A,A
Media Studies	A
Religious Studies	B
Mathematics	B
DT Systems	B
Science (Double Award)	C,C

WORKS EXPERIENCE

Caspian Learning (Computer Games Company, Sunderland)
(April 2007)

- Confident use of IT systems, both hardware and software.
- Strong use of teamwork to meet deadlines, producing quality software.
- Developed upon creativity with level design, with education themed stages.
- Good organisation skills from file updating and transferring.

SKILLS

- Confident use of C++, C# and java.
- Knowledge of HLSL, Lisp and Erlang.
- Strong understanding of UML 2.0 and the Unreal Development Kit.
- Hold a full clean Driving License.

HOBBIES AND INTERESTS

- I am very interested in programming, and study languages such as C++ and C# in my free time. I am enthusiastic about creating computer games, and frequently develop small titles with XNA.
- I play both the guitar and piano, and enjoy developing my skills for both as of my interest in music.
- I enjoy activities such as skiing and paintballing, athletics and a variety of other sports.
- I can drive, and frequently travel to various events and activities, such as the London Expo.
